## *Degree / Certificate Segment*

**ID: 06A** **Optional** **Subordinated to 03B** **Multiple Instances**

The Degree / Certificate segment provides information about degrees and certificates awarded to the student by an institution. There can be multiple instances of this segment as needed.

| Field ID | Position | Field Name | Format | Length | Req/Opt |
|---|---|---|---|---|---|
| 06A28 | 15 | Completion Indicator | numeric | 1 | REQ |
| 06A29 | 16 | SB1440 Transfer Indicator | numeric | 1 | opt ** |
| 06A30 | 17 | Program CO-Unique Code | alphanumeric | 5 | opt ** |

# Transcript Generator Logic

for each active plan (major) code for the student

get the degree type, field of study and HEGIS code

if degree type is AA or AS and the field of study = "XFR"

then SB1440 Transfer Indicator = 1 (yes)

and Program CO-Unique Code = PeopleSoft HEGIS code

if the student already has a degree awarded

Completion Indicator = 1 (yes)

# Los Rios – Student Challenges

Key challenges for students:

- Not knowing the differences between an ADT and a regular AA/AS degree.
- Is an ADT an actual degree?
- Wanting proof that the eVerify has been sent to the CSUs that they applied to.

# Los Rios – Staff Challenges

eVerify challenges for staff:

- The eVerify website it's very easy to use, but "glitchy
- Excel spreadsheet download
- More options under "ADT Eligibility Status”
- Add ability to access previously verified semesters
- Email confirmation to student
- CC Student ID # issues

# Los Rios – Additional Thoughts

- For those students who are missing a grad petition, we send remainder emails; this email is a reminder to apply for graduation by the deadline. (This semester I sent out 3 emails.)
- **CSU email examples**: It would be very helpful for the CSUs to share the emails they're sending to ADT candidates. Those emails generate a lot of questions/confusion for our students and it's helpful to see the emails.
- **Access to CSU deadline dates:** It would be helpful to know what each CSU campuses deadline dates are for students to have their final transcripts on file (with ADTs posted). With respect to these deadlines, they're often very close to when final grades are due at the community college level and it's often very tough to meet the deadlines...especially when they're not communicated to us.

# Identification Process

**Proof of a ADT in-progress or completed can be sent to CSU Fullerton various ways:**

- eVerify website *(#1 preferred method)*
- Email to TransferDegree@fullerton.edu
- Fax
- Mail
- Official Transcript (posted on)

**CSU Fullerton only considers a student an ADT student once their degree in-progress or completed is verified.**

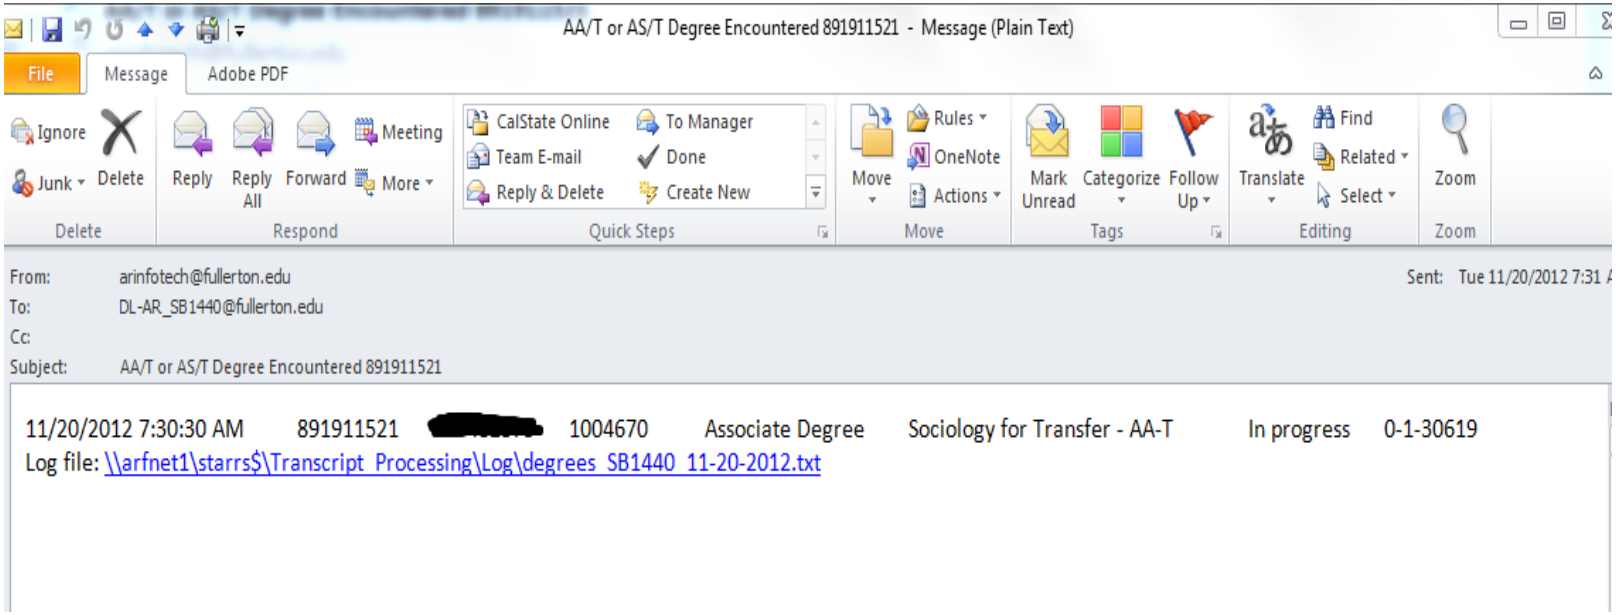
# Transcript Alert System

**Developed a process to send alert messages to Evaluators when a transcript has been posted with either an ADT in-progress or completed.**



# Student Groups

- **Student Groups have been created in our PeopleSoft system to manage, track and monitor ADT applicants and students.**
- **We have created five Student Groups**:
  1. Self-Identified on Application: **TRDS**
  2. In-Progress SB1440  Verification Form/Transcript: **TRDG**
  3. Verified SB1440 Completed: **TRDV**
  4. Incomplete SB1440: **TRDN**
  5. Cancelled SB1440 Agreement: **TRDC**
- **Students will most likely be in more than one Student Group.**

# Titan Degree Audit (TDA)

- **In-Progress ADT Verification Form/Transcript Received: TRDG**
- **Verified ADT Completed: TRDV**
- **Incomplete ADT: TRDN**
- **Cancelled ADT Agreement: TRDC**
- TDA has been updated to use and display four of the Student Groups.
- If students coded as **TRDG or TRDV**, lower division course requirements for some majors may be waived on their TDA. If the degree is not earned (**TRDN**) or cancelled (**TRDC**), their TDA is updated.
- ADT Unique Degree Code (example 31976) information has been added to the Education page on the **Field of Study 1** field in PeopleSoft for the community college.

# ADT Reports

- **Transcript Summary Report**
  - Using our Custom EDI process, we identify all electronic transcripts received by college and source (eTran, Credentials, Docufide, SPEEDE)
  - It also outputs a listing of all ADT transcripts received.
  - Report sent out electronically daily
- **ADT Summary Report**
  - SQR report in PeopleSoft.
  - Gather info from Student Groups and/or education pages.
  - Outputs several different report views
    - Term Overview
    - Application Status
    - By Academic Plan
    - By Community College
    - Outputs list of students (in valid majors and invalid majors for their ADT)
  - Provides critical statistics by term.
  - Helpful for monitoring and planning purposes.

# Automatic Communications

- Developed a systematic and automated way to communicate.
- Students need to be informed of what the ADT degree provides them in the way of admissions and progress towards their degree at CSU Fullerton.
- Runs based on inclusion in Student Groups.
- Messages are emailed to student and archived in Imaging.
- Eliminates need to run queries and manually email students.
- Emails are triggered every time a student is added to a specific Student Group (TRDS, TRDG, TRDV, TRDN or TRNC).
- Emails inform students of their current status and provides detailed information about their status.

# Cancellation Process

- When ADT admitted students deviate from the plan (add minor, change major, DQ, etc.) it cancels the agreement.
- Prior to this Mod, Records staff needed to monitor all plan adjustments.
- Developed a process that runs daily and automatically adds students to “Cancelled” group as needed.
- Staff automatically notified daily when any students are cancelled to verify results.
- Communications are emailed to the student.
- All communications are imaged.
- Titan Degree Audit (TDA) is updated to reflect change.

**Bronco Number:** 999999999
**Term:** Fall 2016
**Major:** Early Childhood Studies

Dear George Glass,

As we continue to process your application, we received notification from the Community College you are transferring from that the **Associate Degree for Transfer** (ADT/AA-T/AS-T) you listed on your CSUMentor application is either **incomplete, or will not be complete prior to your attending Cal Poly Pomona**. Therefore, we have **removed the Associate Degree for Transfer (ADT/AA-T/AS-T) from your record**, and your application will continue to be considered based on Admissions Requirements for Transfer Students.

For detailed information regarding specific requirements for the Associate Degree for Transfer (ADT/AA-T/AS-T) and its applicability, please visit our Transfer Credit Information webpage, or the Associate Degree for Transfer website for more information.

If you have additional questions, you may contact the Office of Admissions & Outreach at (909) 869-5299.

Sincerely,

Andrew M. Wright

March 14, 2016

**Bronco Number:** 999999999
**Term:** Fall 2016
**Major:** Psychology

Dear George Glass,

Thank you for the opportunity to review your application for admission to Cal Poly Pomona for Fall 2016. After careful evaluation of your application, we regret to inform you that although you meet minimum California State University admissions standards, **you were not selected for admission to the Psychology Major** this year. Because you have earned, or will earn your Associates Degree for Transfers (ADT), your **application has been redirected to the following campuses below**:

- CSU Bakersfield
- CSU Channel Islands
- CSU Dominguez Hills
- Humboldt State University

These campuses are currently able to accommodate your application for Fall 2016. In the coming weeks, these campuses will be reaching out to you regarding your redirected application.

I would like to assure you that this decision was made only after a thorough review of your qualifications. Should you wish to appeal this decision, please know that appeals are evaluated based on extraordinary circumstances beyond the control of the applicant. If you believe this applies to you, please review the **appeal instructions**.

Should you wish to reapply to the University for a future term, be sure to refer to the **Cal Poly Pomona website** for admission requirements and deadlines.

We wish you success in your future academic endeavors, and look forward to the possibility of serving you in the future.

Sincerely,

Andrew M. Wright
Director of Admissions

# Redirection

- Verified ADT students (TRDG or TRDV) are eligible for redirection if they are denied to CSU Fullerton and are CSU eligible.
- Redirection cannot be done until we have finalized our GPA for the term and have verified the student is a true ADT student.
- Due to the ADT systemwide deadline for the CCCs to post ADTs in eVerify, the timing for redirection is late in the admission process.
- We redirect most applicants in Fall between April and May and Spring applicants between November and December.
- Each CSU campus is directed by the Chancellor's Office to redirect students to two specific CSU campuses. For Fullerton, it is CSUDH and CSUCI.

# How Redirection Works

- Students are redirected through the CSUMentor backend Control Center site.
- Campuses enter in a list of Application Confirmation Numbers of students that are being redirected and select the campuses on a list to where the applications are being sent.
- A report is produced to show us which students were successfully redirected and which students were not.
- A student would not be successfully redirected if they already applied to the campus.
- Students are not informed of the specific campus they are being redirected to.  They are just informed their application has been directed on their deny letter at CSUF.

# Redirection Challenges

- The timing is very late in the admission process.
- It is very difficult for both the student and the receiving campus with such little time.
- Major do not come over.  We are directing students for being an ADT denied student, but not verifying the receiving campus offers their major.
- It slows down the admission process for these students we know are not admissible, but cannot redirect until we get confirmation of their ADT degree.
- Receiving campuses are struggling with the high volume of redirected applications without the resources or time to process them quickly.
