# ASSIST Facts

- Partnership between 113 CCCs, 23 CSUs, and 9 UCs
- Jointly funded by the CCC, CSU, and UC systems
- ASSIST Coordination Site

# A Critical Tool For Transfer

- ASSIST generated nearly 16 million articulation agreements and transferability lists for more than 1.7 million unique users in 2015
- Number of successful transfers:
  - Over 57,000 CCC students to CSU in 2014–15
  - Over 15,000 CCC students to UC in 2014–15

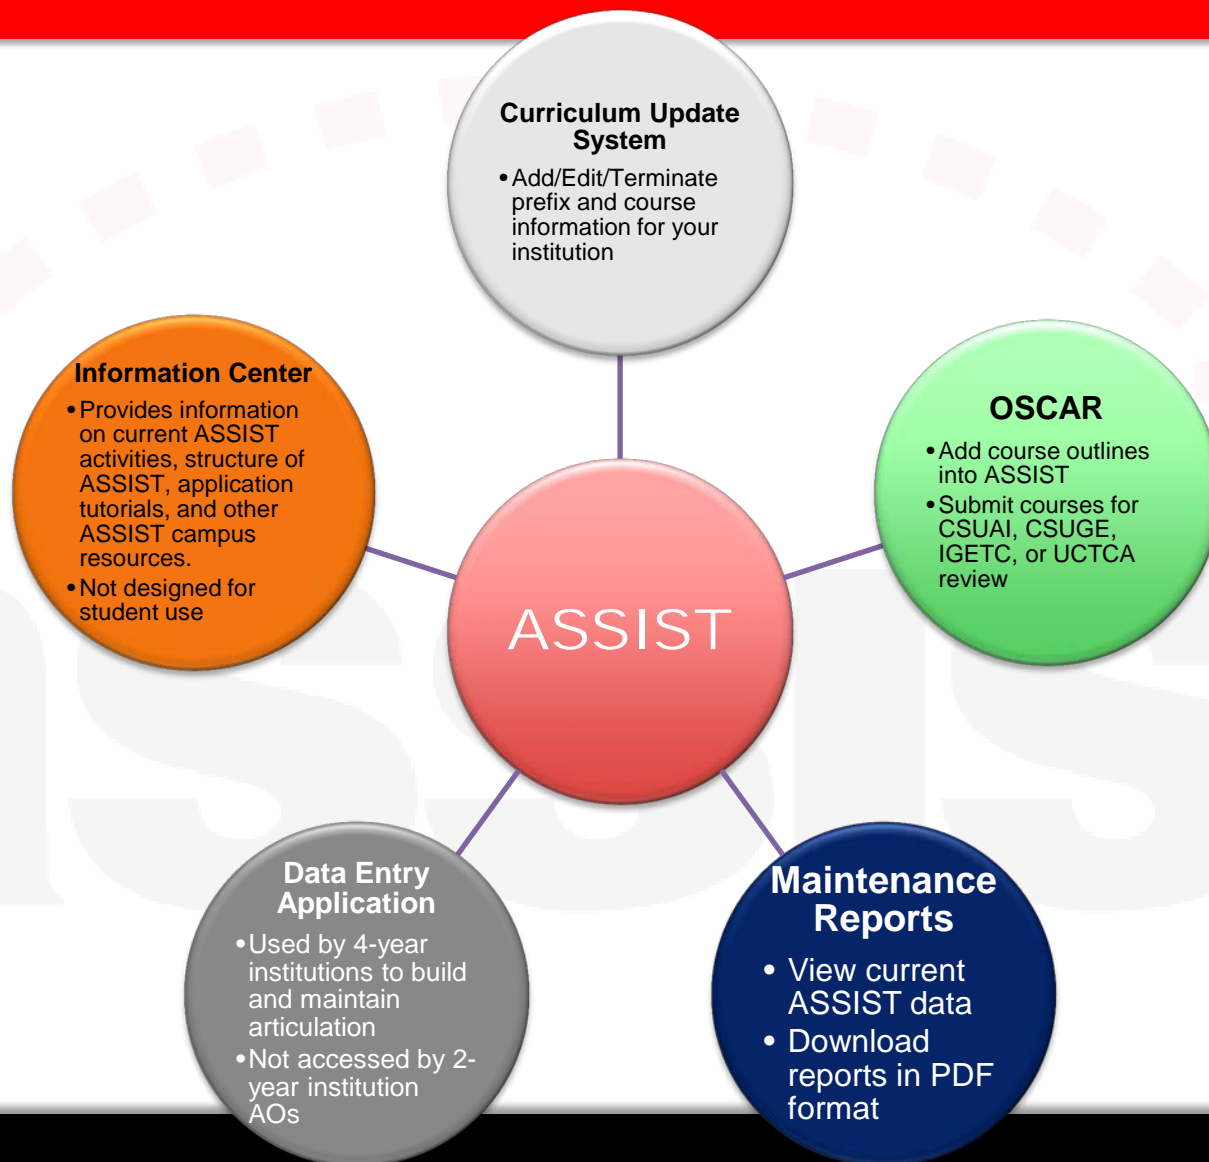

# ASSIST Next Gen

- What is coming?
  - The Next Generation of ASSIST
    - New Design
    - New Features
- When will it be available?
  - CCC, CSU and UC Articulation Officers: January 2017
  - Public: Summer 2017
- Why is it needed?
  - Simplify Transfer
  - Enhance Data Sharing

### Welcome to ASSIST

ASSIST is an online student-transfer information system that shows how course credits earned at one public California college or university can be applied when transferred to another. ASSIST is the official repository of articulation for California's public colleges and universities and provides the most accurate and up-to-date information about student transfer in California.

There are two ways to look up information in ASSIST.

#### Explore Transfer Information

If you have already chosen a major or know what kind of information you want to see, select the transfer information you want to display by choosing an institution below. You can select the institution you are transferring from or to.

Click here to select an institution

#### Explore Majors

If you want to find out about a specific major, search for majors that interest you, or explore majors available at university campuses in California, click Explore Majors below.

Explore Majors

This site is best viewed at screen resolution 1024 x 768 with Internet Explorer 5 or later or Netscape 6 or later.

# ASSIST Home Page

The image shows a screenshot of the ASSIST Home Page. A 'Need Help?' modal window is open, displaying 'Help Information'. The modal lists several topics: 'Articulation Agreements' (highlighted with a blue box), 'CSU History, Constitution, and American Ideals', 'CSU General Education-Breadth', 'IGETC - Intersegmental General Education Transfer Curriculum', 'Transferable Courses', and 'UC Transfer Admissions Eligibility Courses'. Below the list, the 'Articulation Agreements' section is expanded, showing a definition of articulation agreements, how they are developed in the ASSIST database, and information about transferring to campuses not listed in the database. The 'CSU History, Constitution, and American Ideals' section is also visible, starting with a definition of the requirement. The background of the page shows a 'Welcome' message and a search bar.

### Articulation Agreements

Articulation agreements are formal agreements between two campuses. They define how courses taken at one college or university campus can be used to satisfy a subject matter requirement at another college or university campus. To see articulation agreements, start by choosing a college or university.

Articulation agreements in ASSIST are developed and entered into the ASSIST database by the receiving campus (the university campus to which a student transfers). Each university campus is responsible for the content and format of its own articulation. The analysis, evaluation, and data entry of all campus-to-campus articulation is done on the individual university campuses. Not all university campuses provide articulation with every college or for all of their majors or departments. Many university campuses concentrate on their primary feeder colleges and their most popular transfer majors.

Most articulation in ASSIST identifies community college courses that can be used in lieu of a university course to satisfy a specific lower-division requirement at the university campus. University-to-university articulation is not a priority in ASSIST, but there is a small amount in the database.

For information about transferring to campuses or programs that are not listed in ASSIST, contact an admissions or departmental advisor at the university campus you plan to attend.

[Top](#)

### CSU History, Constitution, and American Ideals

The California State University, before awarding a degree, requires students to complete courses or examinations that address:

- The historical development of American institutions and ideals (Area US-1),

ASSIST seeks to facilitate student transfer between public higher education institutions in the state of California. Transfer information viewed on this site is not applicable to private institutions of higher education.

### University Requirement:

CSULA is an impacted campus. Campus impaction requires that we give priority admission consideration to first time freshman applicants and upper division transfers from within our local area. For additional information regarding impaction please visit <http://www.calstatela.edu/univ/admiss/impaction/>

ENGL 102	Composition II	(4)	ENGL 2	Critical Analysis and	(3)
				Intermediate Composition	

A minimum C grade is required

### Requirements for the Major (121 units)

The Bachelor of Science degree in Biochemistry is designed to fit the needs of those who plan to complete their formal education with the bachelor's degree and obtain positions in scientific and industrial laboratories, attend health professional schools, or do graduate study in biochemistry or molecular life sciences.

Students who expect to earn a bachelors degree in Chemistry or Biochemistry in the minimum time should include courses in chemistry, physics, geometry, trigonometry, and algebra (two years) in their high school preparation.

It should also be noted that the chemistry programs are tightly structured and that students should begin calculus and physics sequences at the earliest possible time in order to complete the degree in four years.

#### Biochemistry - BS

#### \*\*IMPORTANT INFORMATION\*\*

**CSULA is an impacted campus.** Campus impactation requires that we give priority admission consideration to first time freshman applicants and upper division transfers from within our local area. For additional information regarding impactation please visit <http://www.calstatela.edu/univ/admiss/impaction/>.

#### Requirements for the Major (121 units)

The Bachelor of Science degree in Biochemistry is designed to fit the needs of those who plan to complete their formal education with the bachelor's degree and obtain positions in scientific and industrial laboratories, attend health professional schools, or do graduate study in biochemistry or molecular lifesciences.

Students who expect to earn a bachelors degree in Chemistry or Biochemistry in the minimum time should include courses in chemistry, physics, geometry, trigonometry, and algebra (two years) in their high school preparation.

It should also be noted that the chemistry programs are tightly structured and that students should begin calculus and physics sequences at the earliest possible time in order to complete the degree in four years.

For Chemistry and Biochemistry majors, only courses with a grade of C- or higher in the major program are credited toward the degree. Successful completion of the major requires a minimum C (2.0) overall grade point average in required courses and a minimum C (2.0) grade point average in upper division required courses and electives. Students who have taken community college organic chemistry have the option of earning credit by examination in CHEM 291A, 291B, and/or 301.

**Only courses with a grade of C- or higher in the major program are credited toward the degree.**

# New: ASSIST Pinboard

Save agreements, lists, and other items to a virtual pinboard

The screenshot displays the ASSIST Pinboard interface. At the top, the ASSIST logo is on the left, and navigation tabs for "Transfer Information", "Explore Majors", and "Compare Courses By Major" are on the right. Below the tabs, there are three dropdown menus: "Academic Year" (set to 2014-2015), "Selected Institution" (set to Los Medanos College), and "Transfer Institution" (set to ---GE/Transfer Only---). The main content area is divided into two columns. The left column has two sections: "Transferable Courses" and "General Education/Breadth Areas". Under "Transferable Courses", there are four radio button options: "CSU Transferable Courses at Los Medanos College", "UC Transferable Courses at Los Medanos College" (which is selected), "UC Transfer Admission Eligible Courses at Los Medanos College", and "C-ID Designators at Los Medanos College". Under "General Education/Breadth Areas", there are three radio button options: "IGETC Approved Courses at Los Medanos College", "CSUGE Approved Courses at Los Medanos College", and "CSUAI Approved Courses at Los Medanos College". The right column is titled "Agreements by" with a "Departments" dropdown menu. Below this is a search bar. A list of departments follows, each with a radio button: English, English as a Second Language, Environmental Sciences, Filipino, Fire Technology, French, Geography, Geology, History, Human Services, Humanities, Italian, Journalism, Leadership And Community Involvement, and Library Studies. The "Environmental Sciences" entry is highlighted with a red circle, and a "pin to board" button is visible next to it.

# ASSIST Explore Majors

## Search by Discipline

The screenshot displays the ASSIST Explore Majors interface. At the top, the ASSIST logo is on the left, and three navigation tabs are in the center: "Transfer Information", "Explore Majors" (which is highlighted in red), and "Compare Courses By Major" (which has a heart icon). Below the tabs, there are three main search categories: "Academic Year" with a dropdown set to "2015-2016", "Explore by" with three buttons ("Discipline", "Keyword", "Institution"), and "Discipline" with a dropdown menu. The "Discipline" dropdown is open, showing a list of disciplines. The text "Please make" is partially visible in the background of the main content area.

Articulation Agreement by Major

Effective during the 2015-2016 Academic Year

To: University of California, Los Angeles  
2015-2016 General Catalog, Quarter

From: MiraCosta College  
2015-2016 General Catalog, Semester

BIOCHEMISTRY/B.S.

\*\*IMPORTANT INFORMATION\*\*

Listed below are the lower division preparation courses for the major. At a minimum, you must complete 3 semesters/4 quarters of calculus through multivariable; one year of general chemistry with lab; one year of biology with lab (cellular, molecular and genetic); one course in organic chemistry with lab; and one course in calculus based physics with lab. All courses must be taken for a letter grade. For more information regarding this major and UCLA's transfer selection process, visit [www.ms.ucla.edu](http://www.ms.ucla.edu) and [www.registrar.ucla.edu/catalog](http://www.registrar.ucla.edu/catalog).

**PLEASE NOTE:** The community college courses listed below have been approved to satisfy the preparation requirements for this major at UCLA, but they may not be exact equivalents of the UCLA courses listed.

LOWER DIVISION MAJOR REQUIREMENTS

CHEM 20A - CHEMICAL STRUCTURE (4.00)	←	CHEM 110 - General Chemistry (5.00)
--- AND ---		--- AND ---
CHEM 20B - Chemical Energetics and Change (4.00)		CHEM 111 - General Chemistry (5.00)
--- AND ---		
CHEM 20L - General Chemistry Laboratory (3.00)		
--- AND ---
